12.30-12.40pm	QUESTIONS	
12.40-1.40pm	LUNCH	
1:40-2.40pm	Image capture demonstration*	Cavelle Griffiths
2:40-3.30pm	Grading in diabetic retinal screening	Cavelle Griffiths
3:30-3.45pm	QUESTIONS	
3:45pm	Vote of Thanks	Ms Lurline Less

*Practical session with Faculty

NURSES SYMPOSIUM

INFECTION CONTROL for NURSES

The **Ophthalmological Society of Jamaica** is pleased to collaborate with **The Flying Eye Hospital ORBIS team** to present a **workshop on Infection Control**. This will be a 2-day course which is designed specifically for nurses and will be held simultaneously as the OSJ conference.

Please note although this workshop has been designed for nurses, it will be of great benefit to all allied health personnel working in the hospitals and private offices and theatres.

The programme will comprise of a **2-day workshop on infection control for all medical personnel and allied health professional (Day 1)** and **Infection Control for the Surgical Nurse (Day 2)**.

Guest Speaker: Elethia Dean, RN, BSN, MBA, PhD *(sponsored by Orbis)*

Learning Objectives

Hospital acquired infections remain a major issue around the globe with 14 out of every 100 patients acquiring a healthcare associated infection during their treatment. The rates of infection being highest in low and middle-income countries. Orbis International Infection Control Workshop wishes to contribute to the reduction in this rate by developing robust, clear standards for infection control covering the following key areas:

- Introduction to Nosocomial Infection
- Education on Universal Precautions for Infection Control, Including:
 - Personal protective equipment
 - Hand hygiene
 - Sharps management
 - Environmental cleaning and decontamination
 - Surgical Attire
 - Risk management monitoring
 - Medical waste management
 - Gloving and Gowning
 - Orbis Safe Site Surgery Checklist
 - Cleaning, disinfection and sterilization

By the end of this workshop, participants should be able to:

1. Identify infection control standards
2. List actions to prevent the contamination to the surgical wound and prevent infection
3. Describe appropriate handling of surgical instruments, including cleaning, disinfection and sterilization
4. Describe the use of the Orbis surgical safety checklist (adapted from the WHO safe site surgery checklist)

SYMPOSIUM ON INFECTION CONTROL March 9th and 10th 2018

Venue: Jamaica Pegasus, Norman Manley Suite

Guest Speaker: Elethia Dean, RN, BSN, MBA, PhD

REQUESTING 6CME for March 9th and 5 CME for March 10th 2018
